

# Carenet Health Brings Innovative Solutions

Targeted Outreach to Acquire, Engage, and Educate Patient Populations

With Carenet Health, you can provide the modern experience your healthcare consumers want while tackling your greatest challenges to patient access, action, and adherence.

## Carenet Solutions

### Reputation Management

Attract, acquire, and retain more patients by fostering higher ratings, better patient reviews, and better patient experiences.

### Intelligent Scheduling built on the InQuicker™ platform

The only solution that helps patients schedule, confirm, or reschedule appointments in the right venue of care and channel of action.

### Referral Management

Bring more referred patients through your front door and transition them to the next step in their care to improve health outcomes.

### Communication & Reminders

Communicate efficiently and effectively with automated text, email, professional recorded voice call, and live agent messages for reminders, billing instructions, messages, and more.

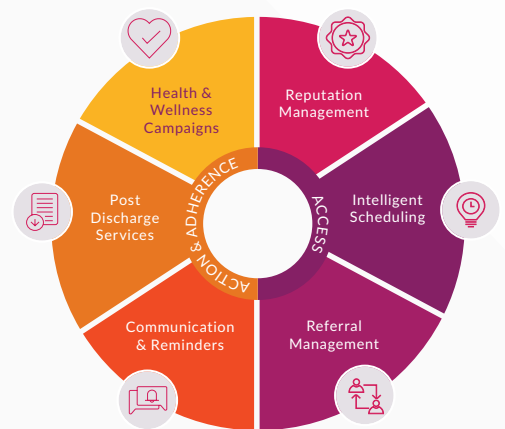

### Post Discharge Services

Manage patient care immediately following discharge through personalized clinical outreach services and customized escalation protocols.

### Health & Wellness Campaigns

Manage highly complex and personalized patient outreach to address concerns stemming from value-based care mandates, increased rates of chronic disease, and other complex issues.

### Patient Preferences

- Demographics
- Clinical Information
- Appointment Type
- Location
- Provider

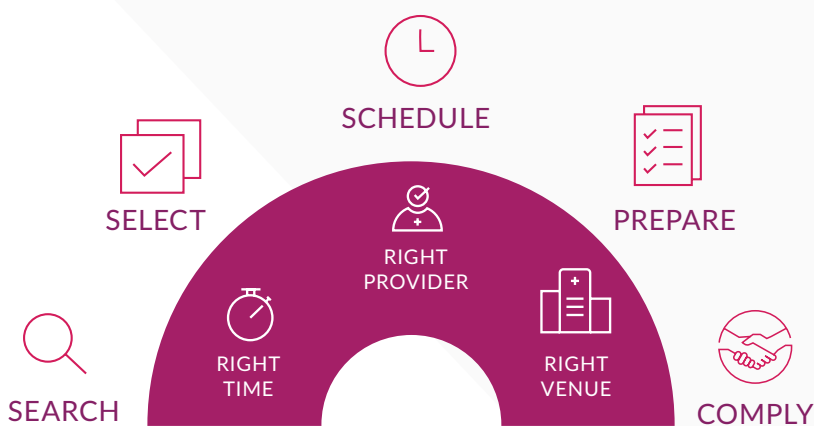

### Communication Channels

- Live Voice
- Online
- Chat
- Email
- Social Media
- Direct Mail
- Text IVR

## Simple for Patients, Powerful for Providers.

Our patient engagement platform delivers the right engagement at the right time and is designed to help you:

- Win organic search
- Maximize schedule utilization
- Reduce patient no shows
- Reduce patient readmissions
- Improve health outcomes

## Modernizing Patient Engagement. Maximizing Patient Outcomes.

Carenet Health offers the most comprehensive patient engagement platform in the industry. We are the only provider that seamlessly combines both voice and digital channels to provide the modern experience healthcare consumers want while solving complex challenges to patient access, action, and adherence. Learn more at [www.carenethealthcare.com](http://www.carenethealthcare.com).

## Award Winning Platform

"They recognize the role both humans and information technology (IT) systems play in patient engagement, developing live voice and digital solutions to meet customer needs and market trends."

- Frost & Sullivan
